The HPC-CF website statistics in 2023

Why are you interested in HPC Certification Forum?

How important do you think the following aspects of this initiative are?

Would you consider contributing some of your time and expertise?

Yes

No

How much time are you willing to contribute?

0
Not interested in contributing

1
1-4 hours - one off contribution

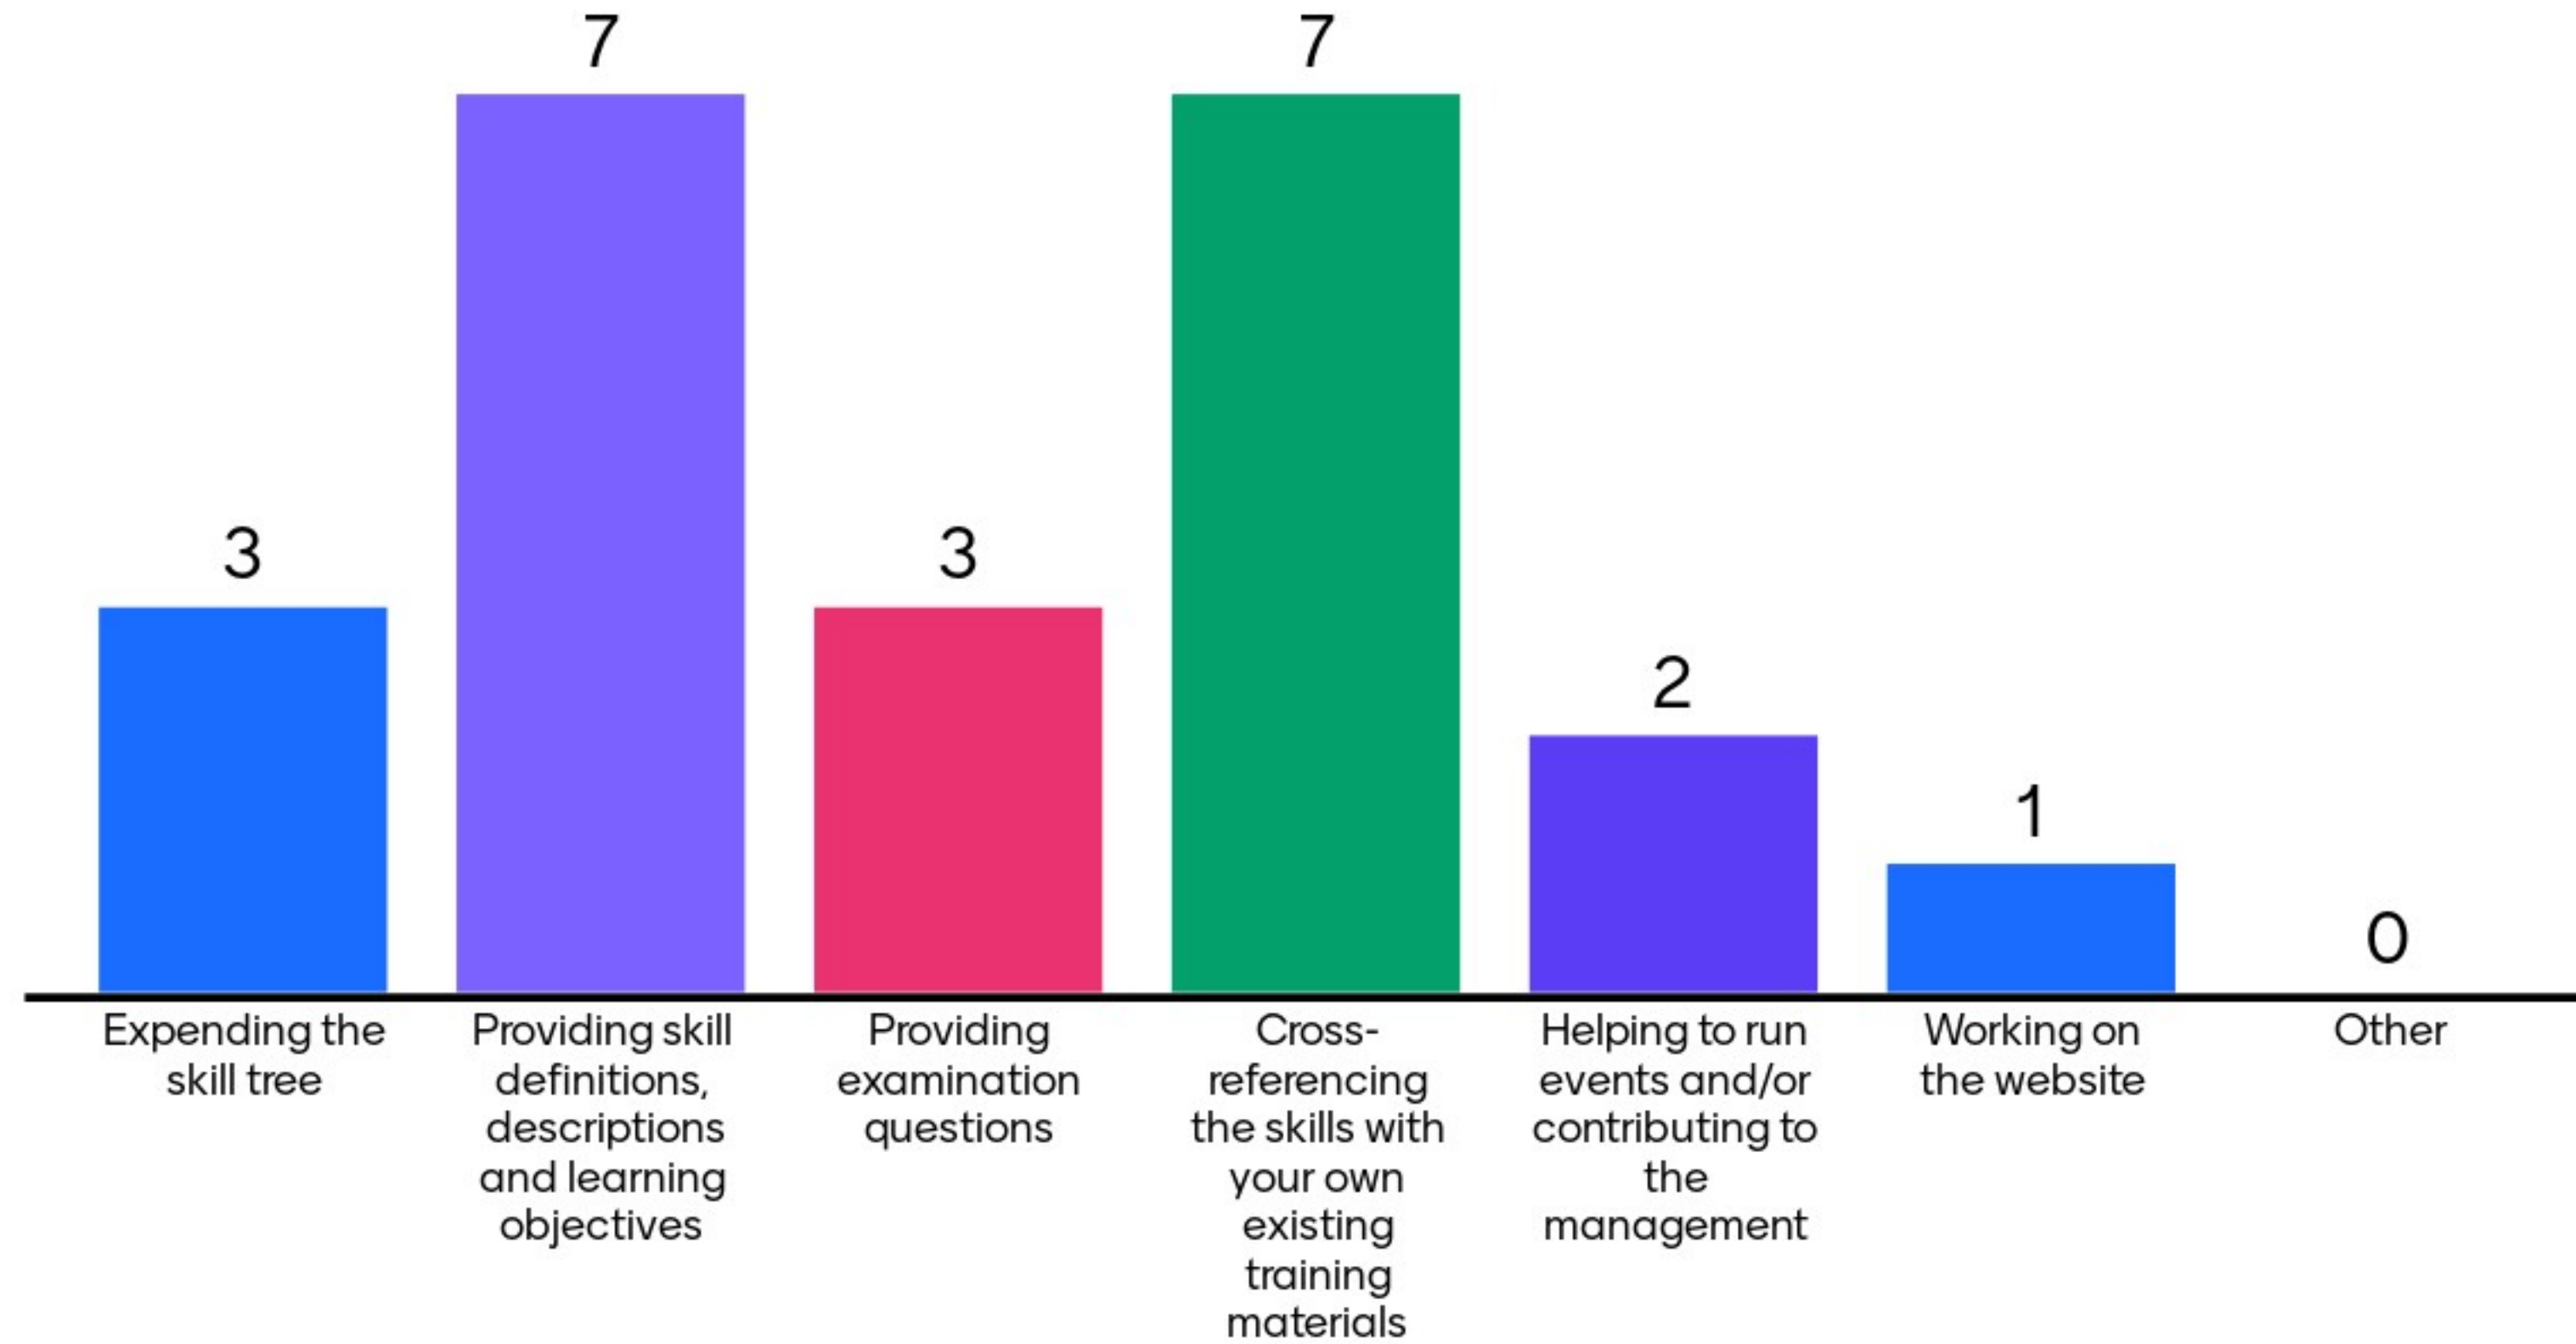

0
a day - one off contribution

8
1-4 hours - monthly

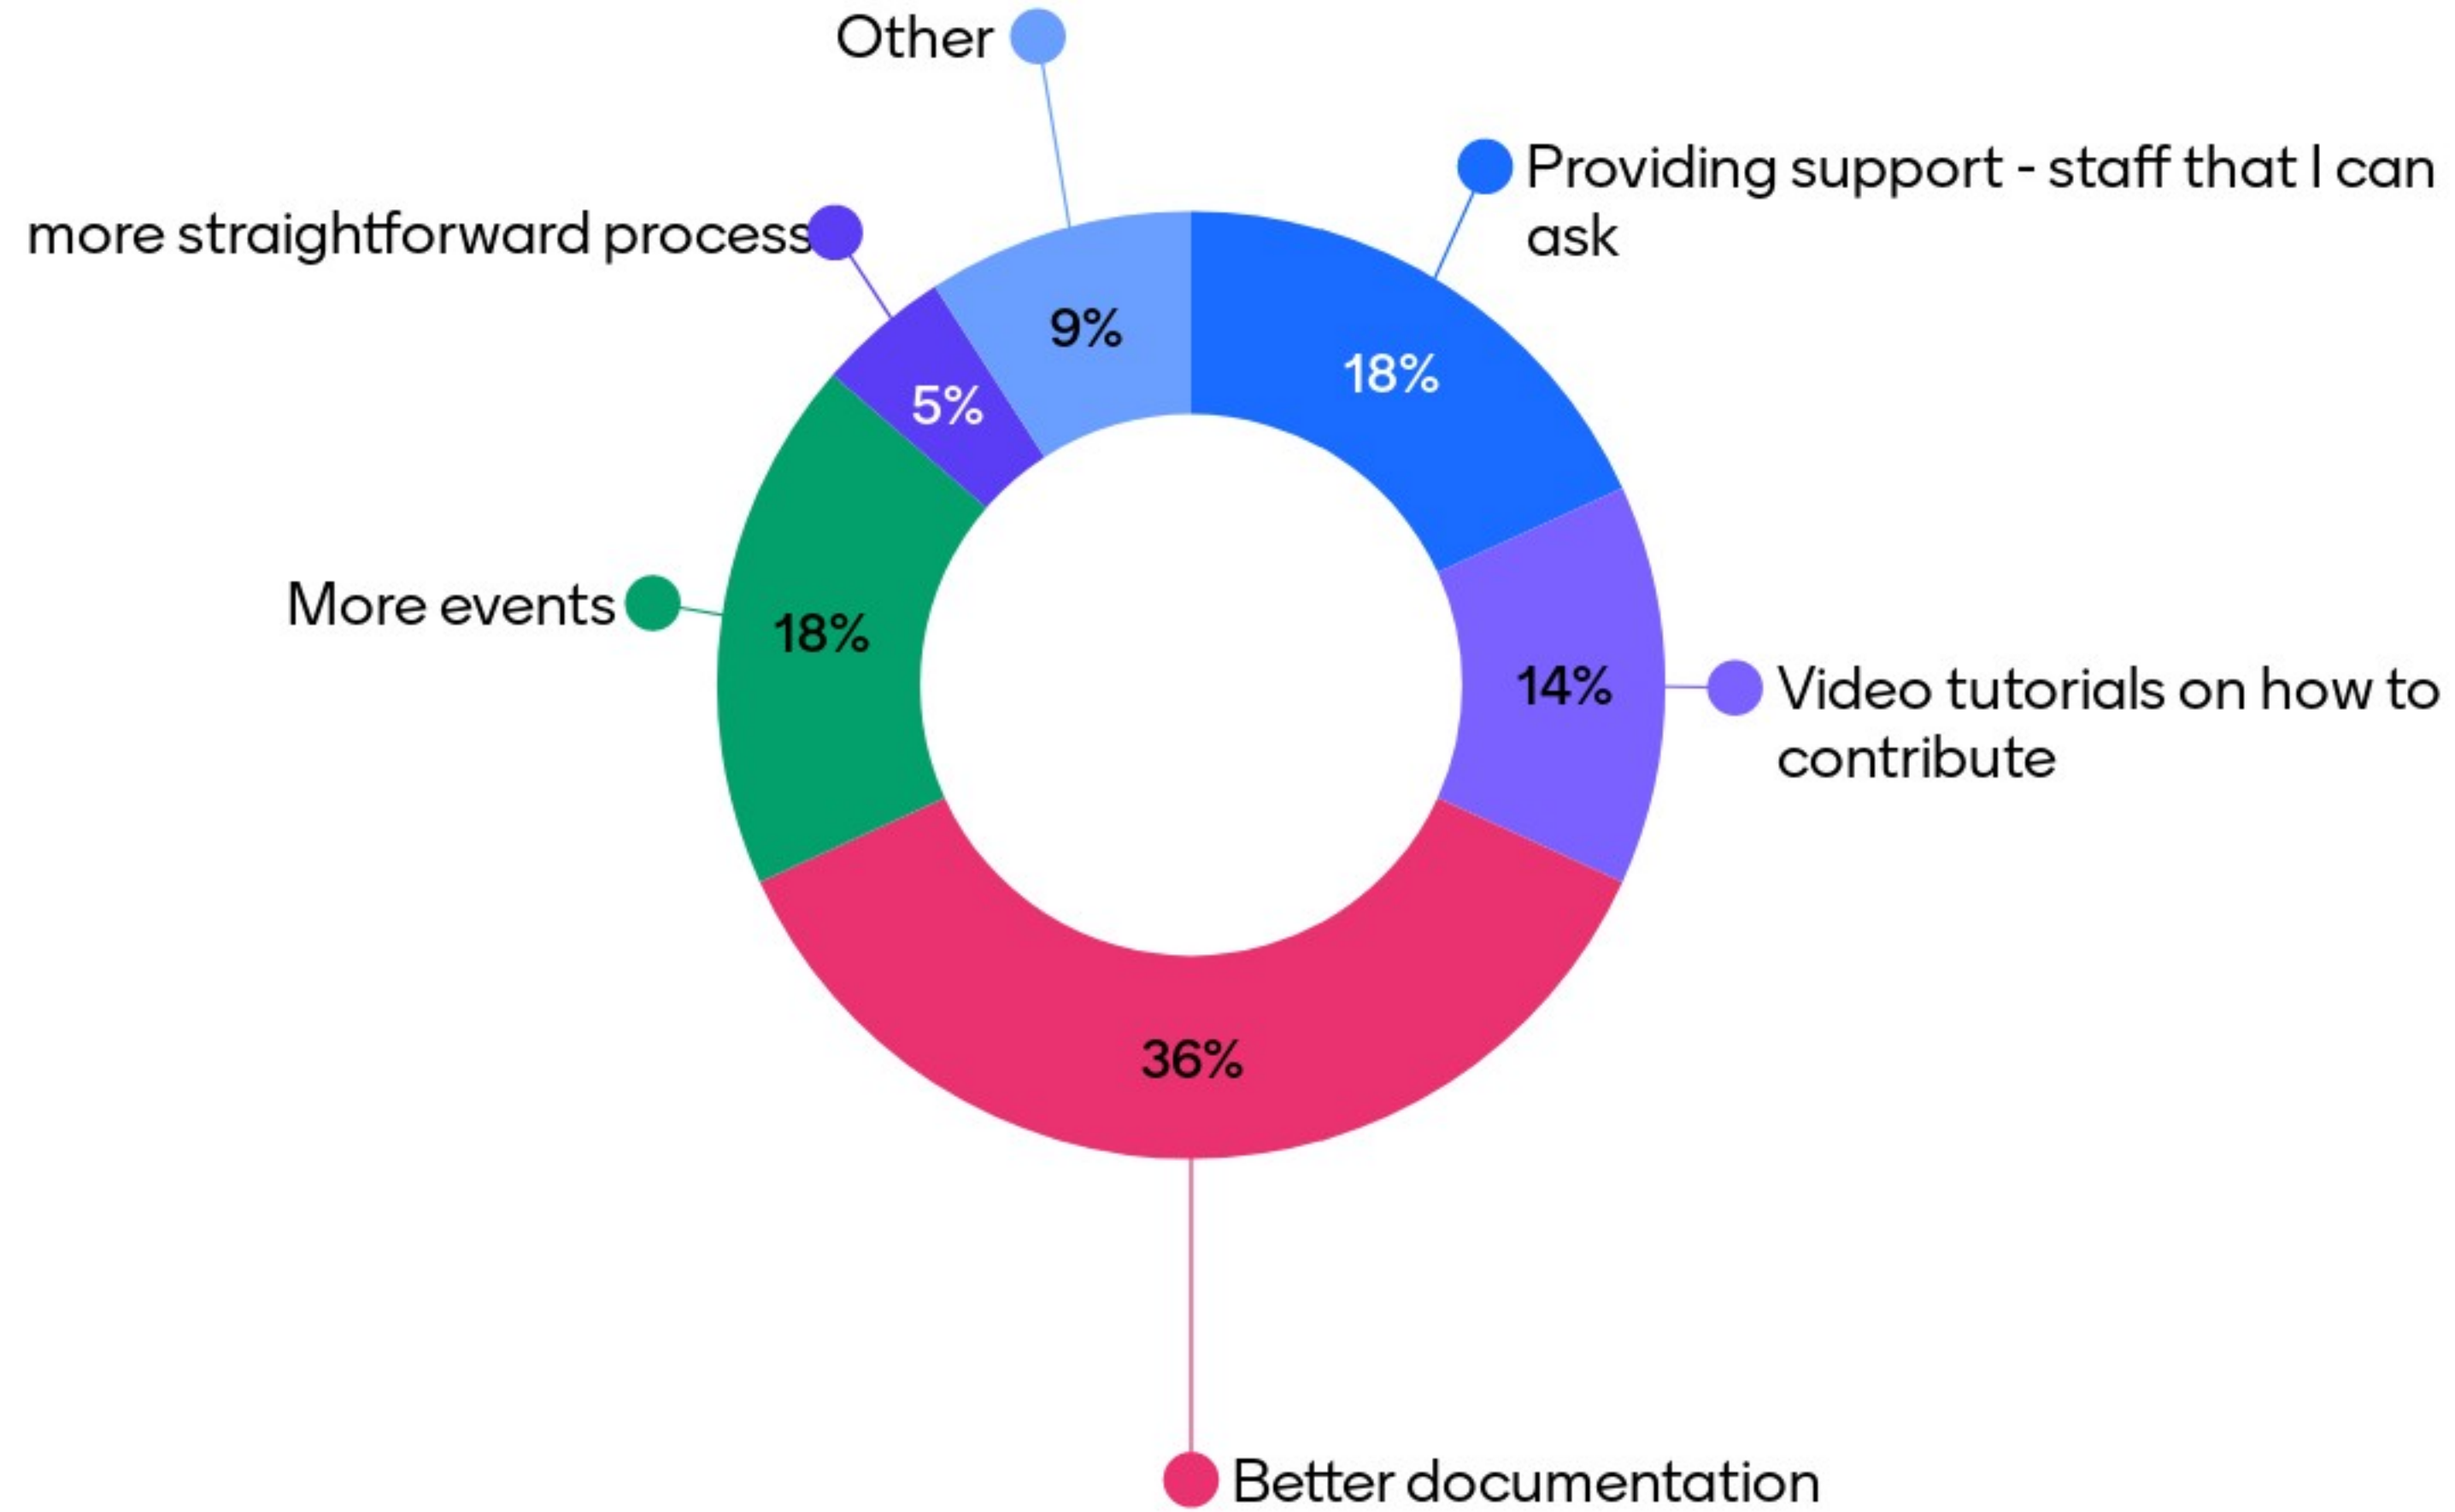

0
a day - monthly

0
more

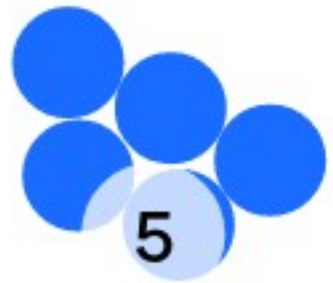

How would you like to contribute?

How can we encourage you to contribute?

What are the main obstacles currently preventing you from contributing?

Lack of time

I don't know enough about HPC-CF

0
I'm not an expert

I don't know how to contribute

0

The process is too complicated

0

I don't see the point

Would you consider cross-referencing the skills defined by HPC-CF with your existing training content?

Yes

No

What sort of guidance or support would you need to cross-reference the skills from the HPC-CF skill tree onto your existing training materials?

see an example

Time to look at the skills :p

Examples of public training materials

I would like to see more of the training materials out there to be linked into this consortium

See how mapping works in practice

Tutorials

A webinar tutorial on how the process works from start to finish (expected success story contribution)

List of preferred and searchable tags (e.g. not "K1") with a direct permanent links to specific skills (do they exists already?)

What sort of guidance or support would you need to cross-reference the skills from the HPC-CF skill tree onto your existing training materials?

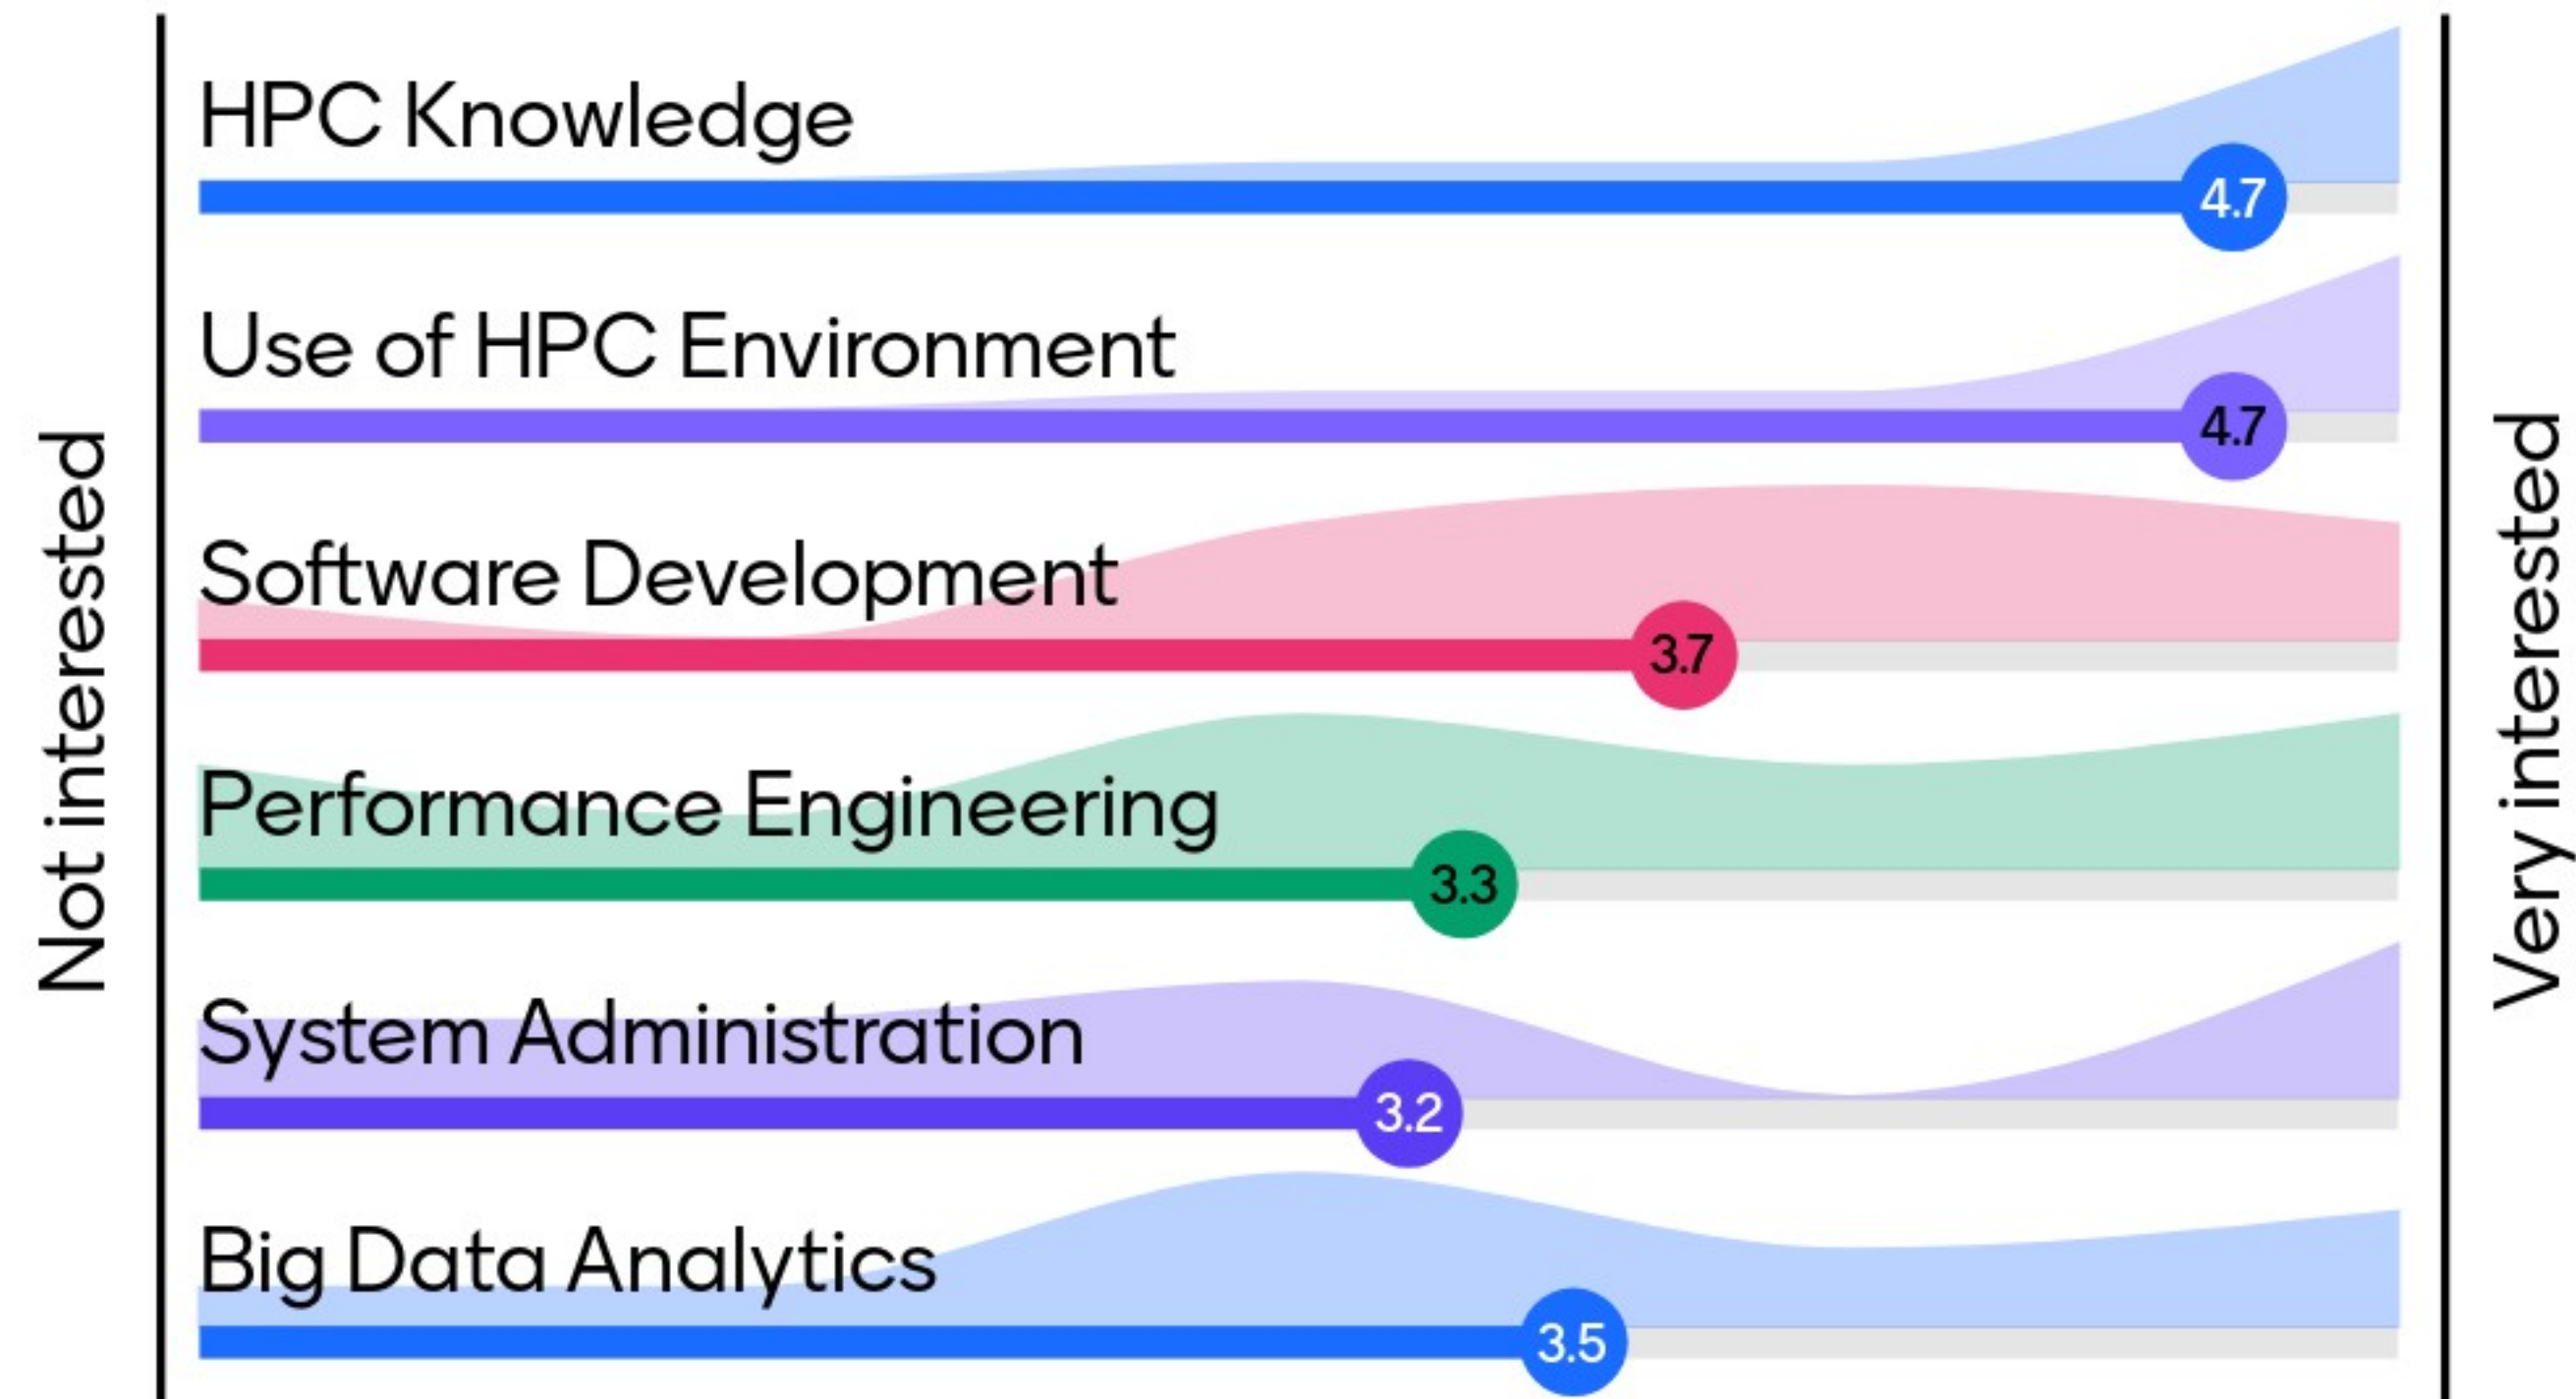

What does the training material need (citation info, license, etc) to be linked

Parallel Programming,

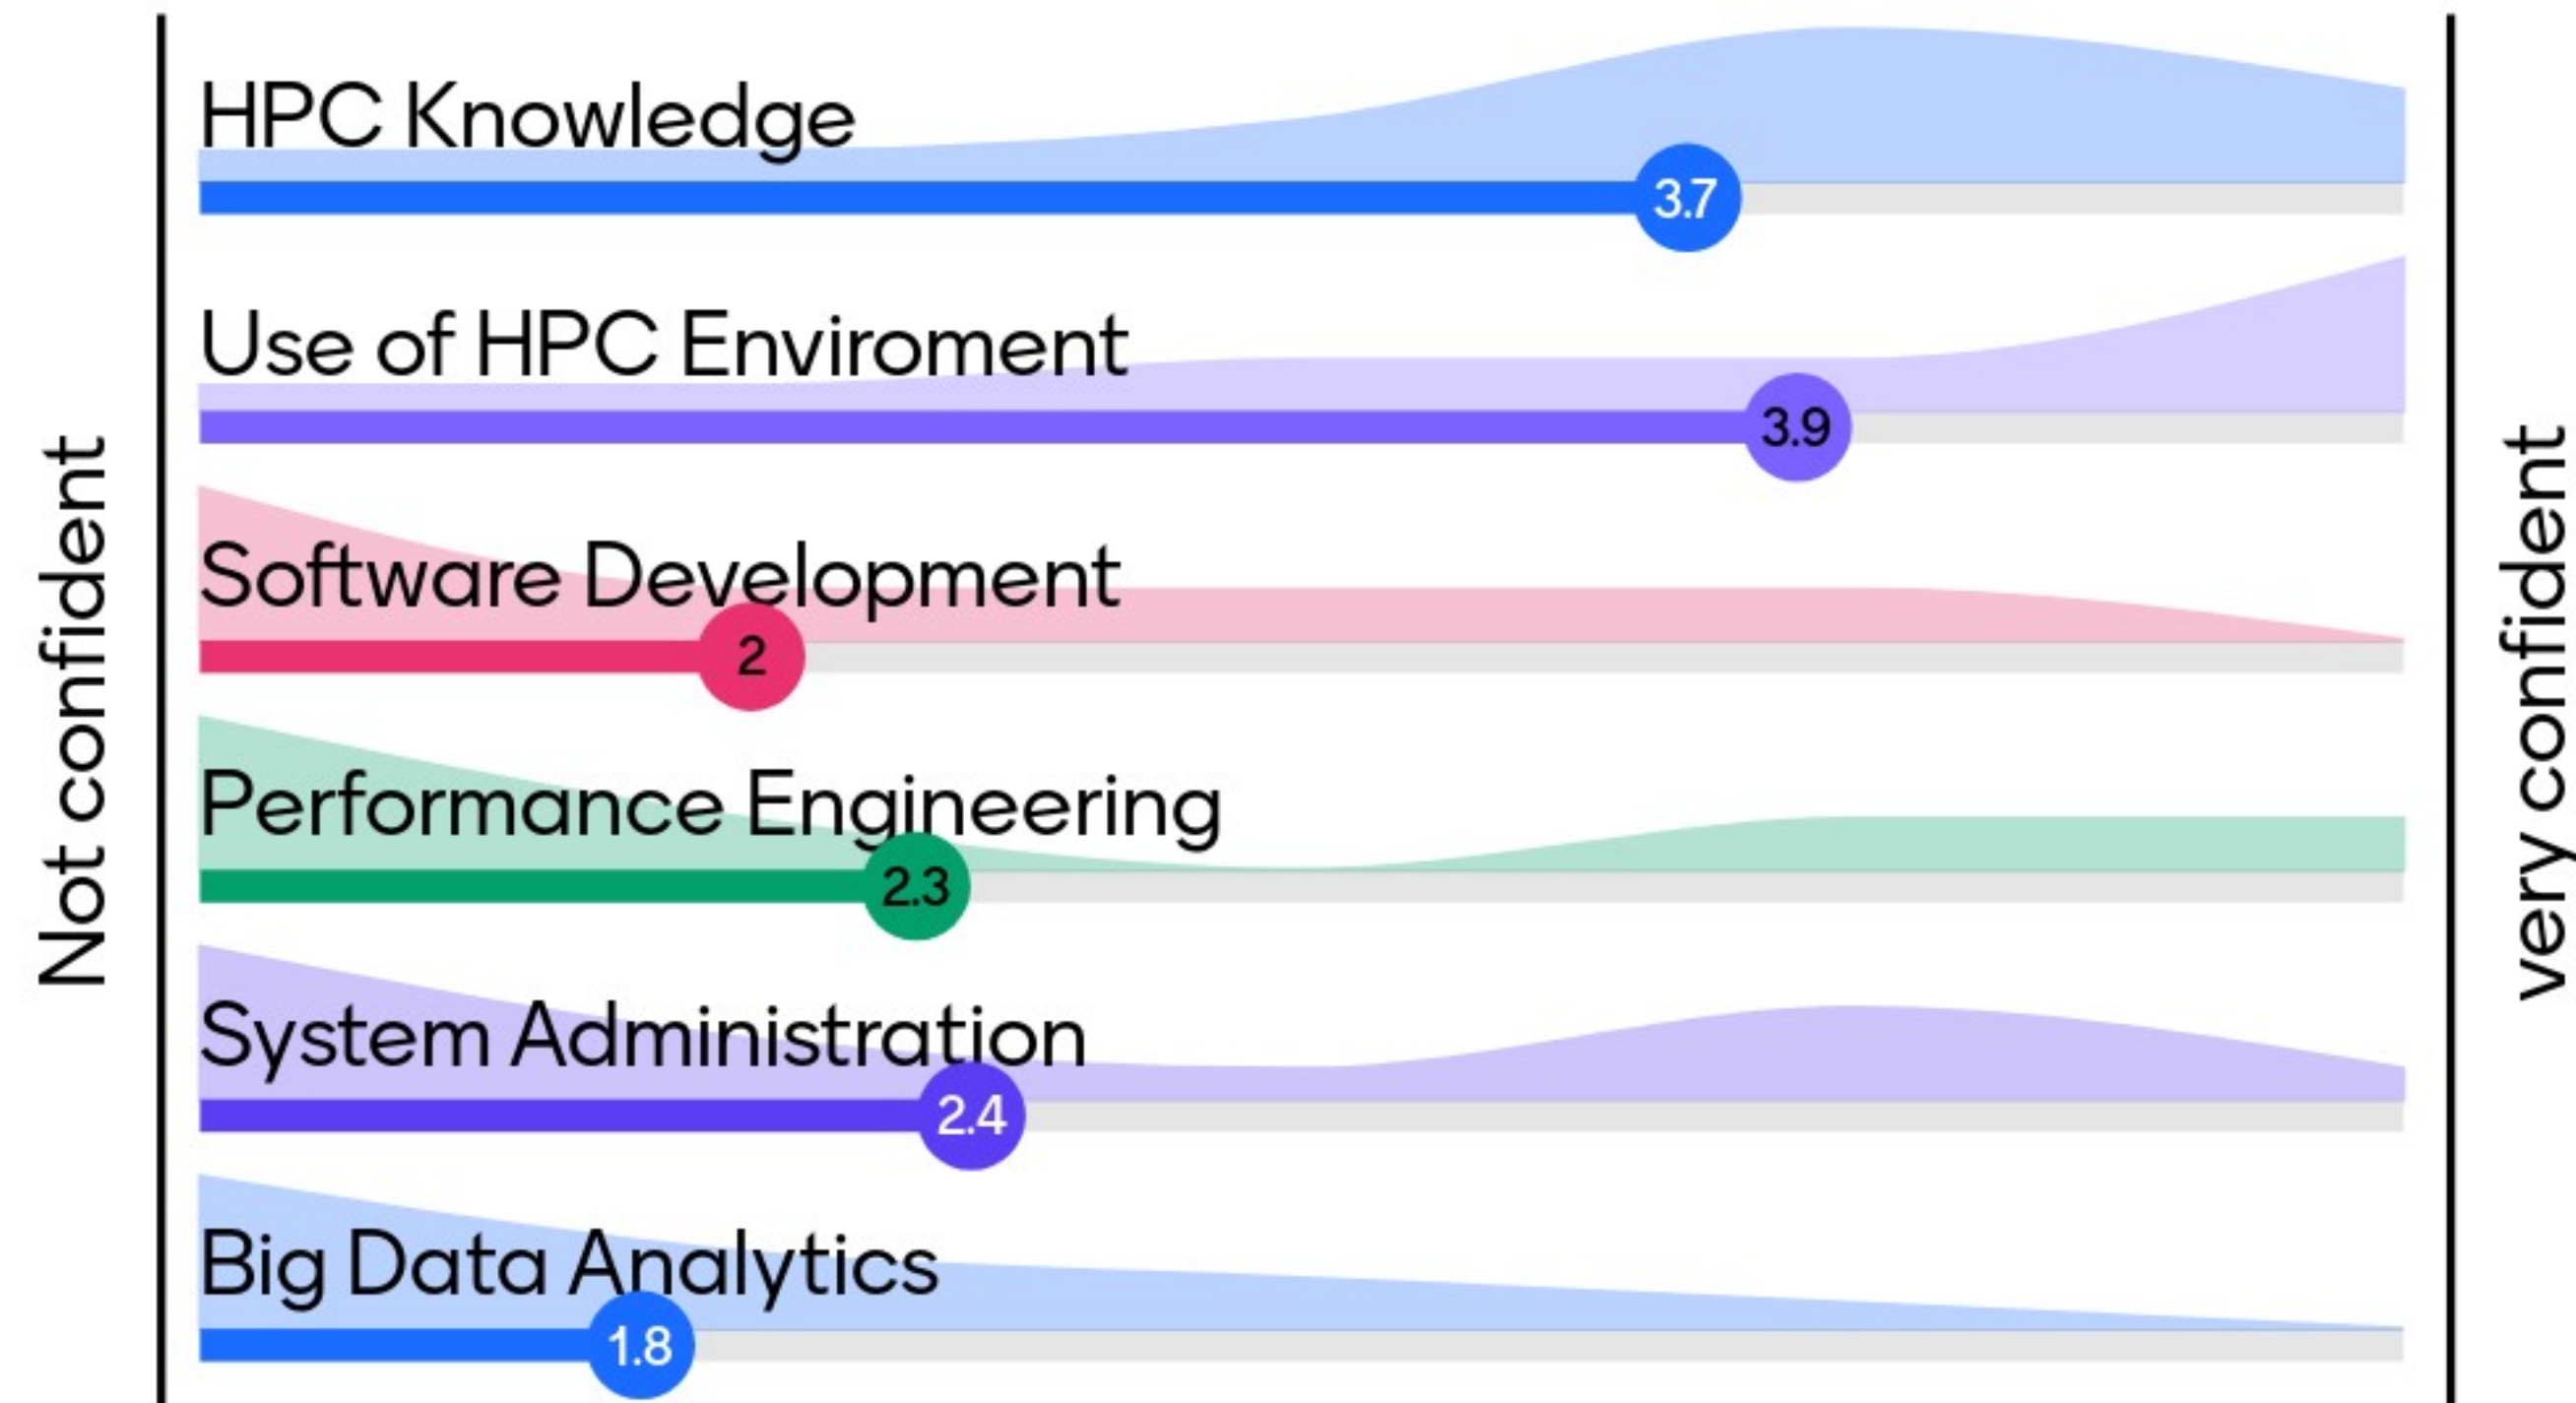

Parallel Programming

Prioritization of what skills need to be expanded more than others. Which ones we want fleshed out more.. community feedback on demand/need.

In general, how interested are you in the skills from the following branches of the skill tree?

How confident are you in contributing to the skills in the following branches?

Thanks for participating!
